JULIE KENT JOINS EUA AS SENIOR HEALTHCARE PLANNER

MILWAUKEE — Eppstein Uhen Architects (EUA) is pleased to announce that Julie Kent, EDAC has joined our health and wellness team as a senior healthcare planner.

In her new position, Julie will work with hospitals throughout the country on planning and design efforts. She brings more than 12 years of experience to the firm, having guided several nationally-ranked organizations in aligning their strategic vision and real estate assets.

Trained as an architect, Julie has evolved her professional career toward operational improvement through advanced learning in process mapping, change management, evidence-based design, and most recently public health at the University of Michigan. Over the last five years, she has volunteered her time to the development of The Center for Health Design - EDAC program and is currently the EDAC Advisory Council Chair.

Passionate about the intersection between operational and physical planning, Julie applies a “systems-based approach” to creating connections between people, process, technology and space. “We have had the opportunity to work with Julie over the last few years and her skills in developing innovative operational processes for healthcare organizations are the best that I have encountered,” said EUA Principal Kristin Dufek. “We are excited to have Julie as a part of our team now as we continue to bring unsurpassed service and solutions to our clients,” added Dufek.

Julie holds a Bachelor of Science degree in architecture from Lawrence Technological University.

###

Eppstein Uhen Architects is a 104-year-old, full-service design firm best known for pairing inspired design with exceptional client service. More than 100 employees in Milwaukee and Madison are challenged to go beyond design by demonstrating unparalleled commitment to the markets they serve, the community, and their clients. The award-winning firm specializes in several distinct markets: healthcare, corporate office, educational, senior living, residential, public, industrial, master planning, and interior design.
