EUA TO DESIGN UWM INSTITUTE FOR INDUSTRIAL INNOVATION

MILWAUKEE – The UWM Real Estate Foundation has selected Eppstein Uhen Architects (EUA) to design the UWM Institute for Industrial Innovation. The 25,000-square-foot accelerator building, to be located within UWM Innovation Park, will provide easy access and foster the growth of companies that spin-out of research at the Milwaukee Regional Medical Complex, Medical College of Wisconsin, Milwaukee County Research Park and companies that locate within Innovation Park. The project is targeting LEED® Silver Certification.

This will be the first building within Innovation Park and will house research faculty from UWM, incubator tenants and community space. The mission of UWM Innovation Park is to create a setting that will serve as a catalyst for strong and enduring partnerships among the University of Wisconsin-Milwaukee (UWM), the Medical College of Wisconsin (MCW), Froedert Hospital, Children’s Hospital, the Blood Research Institute, GE Medical and a wide range of other research intensive businesses located in the Milwaukee County Research Park.

Eppstein Uhen Architects is a full-service, 104-year-old design firm best known for pairing inspired design with exceptional client service. Nearly 100 employees in Milwaukee and Madison are challenged to go beyond design by demonstrating a passionate commitment to the markets they serve, the community and their clients. The firm specializes in several distinct markets: corporate, industrial, public, education, health care, senior living, residential, retail, mixed use, master planning, and interior design.
